Notion  
Zeplin

## SUMMARY

I am a general digital product design specialist with skills ranging from user analysis, UX research, building design systems from scratch, UI design, branding, and migration. Graphics animation and user interface development.

Although I have many years of experience in Graphic Design, I am quite immature in the field of UI/UX. So, I applied for an unpaid internship at GK Group for 3 months, after which I became a full-time employee. After that, because the personal orientation and personnel structure of the company changed, I moved to VNEXT Software and worked until now. I have participated in many outsourced projects here and had the opportunity to take advantage and learn more in other areas such as Front-end Programming, Video Editing, Audio Editing, and MC of an Internal Radio channel.

I am currently looking for my next adventure as a UI/UX designer. I thrive in environments like E-Learning, real estate, environment, virtual currency, community services, etc. However, the areas of opportunity are endless and the impact of design has The body is very large so I can completely participate in other fields.

## PERSONAL VALUE

Dedication  
Curiosity  
Creativity  
Innovation  
Responsibility

HOANG TRUNG HIEU

DESIGNER

To,  
Mr. Abc  
ACB Inc.  
CIC Tower, Cau Giay District,  
Hanoi, Vietnam.

*Dear Sir,*

I am excited to apply for the UI/UX Designer position at [Company Name]. As an experienced designer with a passion for creating exceptional user experiences, I am confident that I can contribute to your team's success.

With 3 years of experience in the field of design, I have developed a keen eye for design and a deep understanding of user behavior. My background in graphic design, combined with my expertise in user research, has allowed me to create engaging and intuitive interfaces that meet the needs of a diverse range of users.

In my previous role at VNEXT Software, I was responsible for the design of multiple projects from conception to completion. I worked closely with cross-functional teams to ensure that our designs aligned with business goals, while also prioritizing user needs. My ability to collaborate effectively and communicate ideas clearly has helped me to develop strong working relationships with colleagues and clients alike.

I am also well-versed in a variety of design tools, including Adobe Creative Suite and Figma. I am comfortable working in agile environments and have experience using project management tools such as Trello and Jira.

In addition to my technical skills, I am a creative problem-solver who is always looking for ways to improve the user experience. I am passionate about keeping up-to-date with the latest design trends and technologies, and I am constantly seeking opportunities to grow and learn.

Thank you for considering my application. I am excited about the opportunity to contribute my skills and experience to the team at [Company Name] and look forward to discussing my qualifications further.

*Your Regards,*  
**Andy Hoang**
